

Semalytix is a fast growing start-up specialised in developing products for explaining the global conversation around Competitive Intelligence topics in the Pharma domain. Our AI solutions extract insights from large amounts of textual data in real time to support our customers in making decisions at the operational and strategic level much faster, more informed and much easier – on the solid base of Machine Learning, Natural Language Processing and Knowledge Graphs.

We offer:

- A young, dynamic, and motivated international team with a background from 17 different nations striving for the best solutions for our customers
- An open and flexible culture and working atmosphere
- The option to occasionally work from our second office space in Lisboa, Portugal
- Interesting and diversified responsibilities with a lot of design flexibility and high research affinity
- The spirit and culture of a fast-paced and dynamic start-up in a highly collaborative working environment
- Support and resources for taking classes related to professional skill improvement

In order to expand our Knowledge Engineering Team, we are seeking (full-time, as soon as possible):

Pharma Domain Expert (m/f/d)

Your responsibilities:

- Put your pharmaceutical expertise and experience at the service of our customer-facing AI technology, product development, and internal processes
- Assist the Knowledge Engineering team in making high-quality data available to the rest of the company by validating and enriching the current content of our knowledge archives
- Research, document, and communicate Pharma-related scientific and market developments
- Consult closely with our data engineers to improve the overall quality and coverage of our domain knowledge, with a focus on trial, real-world, payer, regulatory, and industry data sources
- Help design and implement validation strategies to maintain data accuracy and integrity at the highest possible level

Required skills and qualifications:

- Excellent domain knowledge, e.g. Pharma companies, products, therapy focus, clinical trials, industry conferences, and global regulatory bodies and their processes
- Advanced degree and/or industry experience in pharmaceutical development, medical science, field force work, trial management, commercialisation, and/or Pharma market research
- Critical, detail-oriented, and structural thinking
- Ability to quickly research and map out new topics and methods
- Experience in doing research based on Pharma-related sources of knowledge (e.g. industry-standard databases and publications)
- Very good English skills, German is a plus
- Practical experience in working with databases, knowledge graphs, and ontologies is not required, but a strong plus

Please apply at careers@semalytix.com. Your application documents (in English) should include a letter of motivation, CV, relevant certificates, and references in one single PDF document.

Informal inquiries may be directed to Katharina Wendler (katharina.wendler@semalytix.de). Positions remain open until filled. We are strongly committed to promoting equal opportunity and diversity in our team.
