

Semalytix is a fast growing start-up that develops an AI-driven Business-Intelligence-as-a-Service platform for explaining the global conversation around Competitive Intelligence topics in the Pharma domain. Our AI is capable of reading digital text with human accuracy at machine scale. Based on this real-time processing, we serve action-ready insights to support our customers in making decisions at the operational and strategic level much faster, more informed and much easier – on the solid base of Machine Learning, Natural Language Processing and Knowledge Graphs.

We offer:

- International business experience
- The spirit of a fast-paced and dynamic start-up in a highly collaborative working environment
- A young and motivated international team with a background from 17 different nations striving for the best solutions for our customers
- An open and flexible culture and working atmosphere
- Work with state-of-the-art data sources

In order to support our Information Research Team, we are seeking (part-time or full-time):

Information Research Intern (m/f/d)

Your responsibilities:

- Learn and map out the key intelligence questions important to our Pharma customers
- Collaborate in a mentoring relationship with our Product & CRM leadership
- Conduct research in our Business Intelligence platform to find novel links between sentiment, market, and medical outcomes in the real world
- Gather, interpret, and communicate results to tell a data-driven story explaining the value of specific treatments, health choices, and Pharma initiatives
- Align with analytic and development functions within our company to support our research needs
- Document your work in our CRM system
- Learn and understand nuances of the Business Intelligence domain in Pharmaceuticals
- Complete tasks within set timeframes and provide updates on their progress
- Participate in meetings with senior management/research leaders in Pharma to develop and deliver insights to improve both patient outcomes and competitive advantage

Required skills and qualifications:

- You are currently enrolled in a BA/BS or MA/MS in Information Science, Business Administration, or similar
- You are a highly motivated team player with excellent written and verbal communication skills
- Business fluent English skills, German is a plus
- Ability to work independently with a personal drive to make things happen
- You have an eye for details and you are customer-oriented
- Proven record of prioritising effectively and handling shifting priorities
- Proactive and resourceful
- Previous internship with life-science, consulting & tech firms is preferred

Please apply at careers@semalytix.com. Your application documents (in English) should include a letter of motivation, CV, relevant certificates and references in one single PDF document.

Informal inquiries may be directed to Katharina Wendler (katharina.wendler@semalytix.de). Positions remain open until filled. We are strongly committed to promoting equal opportunity and diversity in our team.
